

Georgia Green is Back

Back by popular demand, the Georgia Green Punted Burgundy BVS bottle is particularly suited to light white wines such as Sauvignon Blanc and classic white blends.

The visually appealing colour accentuates and highlights the freshness of white wines and delivers vibrant on-shelf impact.

The green shade enhances a perception of youth which is particularly important for Sauvignon Blanc wines.

The cool, crisp appearance also helps draw the consumer's eye with its ability to stand out in crowded fridges and shelves.

The Georgia Green Punted Burgundy BVS bottle is now available and is also produced in Antique Green, French Green and Arctic Blue.

Contact your O-I salesperson or O-I Customer Service for more information.
